

THE FOLD

JANUARY 2020

LAMB'SGATE
CHRISTIAN SCHOOL

WELCOME BACK!

We hope everyone had a blessed break with family celebrating the birth of our Savior! We are excited to return and welcome our littles back to campus! Exciting things lie ahead.

Before we jump into the excitement, please take a minute to refresh your mind on a few of our school policies numbered below:

COMING UP AT A GLANCE JANUARY

6th - First Day Back

15th & 16th Snow
Days

15th & 16th Group

4

SICKNESS POLICY

If your child has been sick, please give a 24 hour window of reprieve before returning to school.
We all THANK you!

Registration for 2020 starts soon!

Letters of intent are going home to get a feel for plans for the 2020 - 2021 school year. Please fill out and return those forms by January 15th. **Registration for current families starts FEBRUARY FIRST!** Open enrollment starts mid February.

On **January 22nd**, we will have a Move Up Day where our students in the Bears, Lions, and Quails will get to experience enriched activities that they would normally participate in in our Kinder Bridge and Kindergarten Program. Spanish, PE, Art, and Literature are just a few of them!

Bids & Boots

Our largest fundraiser of the year is coming up on **February 28th**. A formal invitation will be sent via email with a direct link to buy tickets and many more details for a fun filled evening. Be on the lookout!

COMING SOON... SENSORY AND MOTOR LAB

We are close to officially opening our very own Sensory and Motor Lab. Tina Liotta, our Developmental Specialist on staff, has poured her heart and soul into it and it has turned out beautiful!

The purpose behind such a space is to provide an enriched environment designed to stimulate and develop children's sensory systems. The organized activities are designed to improve coordination, motor development, and promote cognitive development. Swinging on a variety of swings, climbing the rock wall, or playing in the colorful ball pit are just a few of the fun activities provided. This is also a space where kids can learn to self regulate. A child who is well regulated can attend and focus better in the classroom.

We are thrilled to share this unique space with our students. Be on the lookout for a "permanent field trip" form to authorize frequent visits to the Sensory and Motor Lab!

*This space was funded by the money that was raised from last years Dinner and Auction. If that was you... THANK YOU!
